

# ALBUM ALLEY

**The Dirt Band/Dirt, Silver & Gold/U.A.**  
The Dirt Band has 10 years of country rock behind them and they have touched on all kinds of music along the way. It took a three record set to hold all the old hits plus some new music. The album really captures the spirit and growth of the group.

### **ZZ Top/Tejas/London**

That little ol' band from Texas plays a hard driving Southern rock and roll that flows naturally from these three good ol' boys. *Tejas* is their fifth album and the sound that turns on concert crowds is here. Those Texas roots are deep and there is even a Mexican flavor to a couple of tunes. When it comes to boogie the band is at its best and there's plenty of it on *Tejas*.

### **Wings/Wings Over America/Capitol**

This three record set was recorded during Wings '76 concert tour and it's packed with great music. Most of the big hits written by McCartney for either the Beatles or Wings are here. Songs like "Yesterday", "Lady Madonna", "Silly Love Songs" and "Band On The Run" are given new life and excitement on this live set. The records come in a colorful package that includes a poster.

### **Fairport/Gottle O' Geer/Island**

If you like your pop music with an Irish flavor, Fairport is it. Some of the tunes sound like jigs and the guitar and fiddle playing is amazing. It's warm and high spirited.

### **Atlanta Rhythm Section/A Rock And Roll Alternative/Polydor**

They sound like a high class Grand Funk — more into music than theatrics. Guitar and keyboard work blend and the music doesn't leave you deaf. With skill rather than volume they really have found a rock and roll alternative.
