

# ALBUM ALLEY

## **K.C. & the Sunshine Band/TK Records**

The energetic rhythm of the Florida super-group, K.C. & the Sunshine Band, is a real pick-me-up. The eight disco originals on this new album feature a brass and drum section that make it a danceable party record. K.C. is in top form with tunes like the hit from this LP, "Shake Your Booty".

## **Donny Most/United Artists**

This freckled TV star even sings cute. Both the songs he chose and his voice are light and simple. The album leads off with Donny's single "All Roads (Lead Back To You)". Included are some classic rock tunes like "Bony Moronie" and "Hey Baby". Fans will love it.

## **N.Y.C. Rhythm Orchestra/Art Deco/Full House Records**

The best of the Disco back-up musicians have joined forces and become the New York City Rhythm Orchestra. Rather than just playing behind David Bowie or Gloria Gaynor they've created hit sounds like "Art Deco". Their music has a classy New York feel that has feet moving on dance floors in all the states. The New York City Rhythm Orchestra is a powerhouse group with potential hit album skill and experience.

## **Robert Palmer/Some People Can Do What They Like/Island Records**

When this guy does what he likes with music everybody likes it. He plays and sings a street level rock and roll. His songs build layer by layer and before you know it you're dancing. His tunes pack a persistent punch. The result is a knockout.

## **Elton John/Blue Moves/Rocket Records**

Elton's 14th album is a deluxe two-disc set that is packed with 90 minutes of all kinds of good pop music. He rocks with good humor and croons ballads with choirs and symphony orchestras. The Captain and Tennille even do a guest spot on the album. Lots of number one singles will come from this Elton John LP.
