# What Everybody's Talking About!

## • SINGLE OF THE MONTH

**Mike Lookinland: "LOVE DOESN'T CARE WHO'S IN IT."** Michael's first single record is a real cutie! It's got a great beat and clever lyrics . . . we can't wait until he has a whole album full of songs like this one! Be sure and get it!

## • SWINGING SOUNDS

**Bo Donaldson & The Heywoods: "BO DONALDSON & THE HEYWOODS."** There have got to be millions of Heywoods fans that would die for this album! It not only has "Billy, Don't Be A Hero," but "Who Do You Think You Are?" as well! If you can stand one more great song, it'd have to be "Girl Don't Make Me Wait" . . . but there's also "The Last Blues Song" and . . . and all eight others! Get it quick!

**Elton John: "CARIBOU."** Got to be one of Elton's best albums with his biggie, "Don't Let The Sun Go Down On Me" smack in the middle of it! Another goodie is "Pinky," and "Ticking"! It's Elton John, and what more can we say?

**John Denver: "BACK HOME AGAIN."** Everyone knows how much John loves his home, wife, family and friends . . . and now he's got an album about it! His hit, "Annie's Song," is there, as well as "Back Home Again," "The Music Is You" and our favorite, "This Old Guitar," which John sings by himself as he plays the guitar. What a fantastic album!

**Marie Osmond: "IN MY LITTLE CORNER OF THE WORLD."** This is Marie's second album produced by Sonny James, who's one of the biggest country-western stars around! Marie sings the title song, as well as "Singing The Blues," "Invisible Tears" (an oldie that she does very well!), "True Love's A Blessing" and 6 others! The only bad thing about this album is the cover . . . Marie's **much** prettier than it shows her!

**Martha Reeves: "MARTHA REEVES."** Martha Reeves can really make you feel a song, and this album is a good example! "Ain't That Peculiar" is our favorite, along with "Sweet Misery"! Lots of stars helped out in background vocals and harmony, like Billy Preston and Hoyt Axton, James Taylor, Joe Sample!
