The Best In Single Records and Albums

• BEST SINGLES

Sammy Johns: "RAGDOLL." This is Sammy's first release since his first hit "Chevy Van," and it's a great follow-up! Sammy is a real talent and this new single should send lots and lots of good vibrations around! (GRC Records)

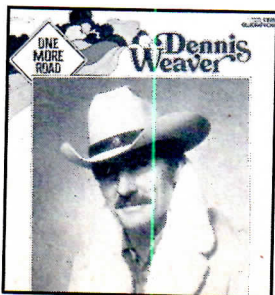

Ted Neeley: "PARADISE." You probably know Ted as the great actor in "Jesus Christ Superstar" and "Tommy," but with this new single you'll love him as a singer, too. Ted's new song has a great sound and it should be a big hit for a deserving guy! (MCA Records)

Hudson Brothers: "RENDEZVOUS." This new single by the Hudsons is fantastic and we really love it! They sound soooo good and it's really a great song to dance to! (Rocket Records)

• BEST ALBUMS

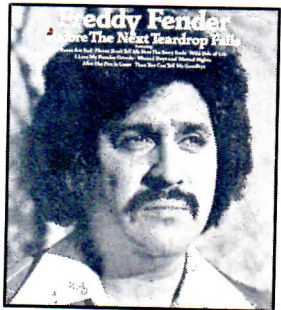

Elton John: "CAPTAIN FANTASTIC AND THE BROWN DIRT COWBOY." It seems Elton can do no wrong when he puts out an album and this one can't help being as popular as his others. Our favorites on the album are "We All Fall In Love Sometimes," "Gotta Get A Meal Ticket," and "Curtains." (MCA Records)

Dennis Weaver: "ONE MORE ROAD." If Dennis new album is as popular as his TV show he's bound to have a winner. Dennis sing some nice country songs on the album. Some of our favorites are "Cowboys an Daddies," and "Hollywood Freeway, which Dennis wrote himself. (Ovation Records)

Johnny Mathis: "WHEN WILL I SEE YOU AGAIN?" Johnny has been around for quite awhile and this album is just another addition to his list of accomplishments. Johnny sings great hits like Barry Manilow's "Mandy," and "The Way We Were." (Columbia Records)

Freddy Fender: "BEFORE THE NEXT TEARDROP FALLS." You may not have heard of Freddy Fender before, but he's been around since the fifties. Freddy's new album has some great songs on it. A few of our favorites are "Roses Are Red," "I Almost Called Your Name," and "I'm Not A Fool Any-more." (ABC Records)

Jackson Five: "MOVING VIOLATION." The J-5's new album isn't quite as teeny-bop as some of their earlier albums, but it's just as good if not better. We think all of the songs are super and we especially liked "Forever Came Today." (Motown Records) •
