• BEST ALBUMS

Tanya Tucker: "TANYA—LOVIN' AND LEARNIN' " is her newest LP and all Tanya fans and country-western lovers everywhere will want to add her LP to their collection. Some of our favorite cuts are "Ain't That a Shame," and "Depend on You." Tanya recorded this album in Nashville, and it's got a real country flavor! (MCA)

The Sylvers: "SHOWCASE." That's almost what this LP is, too, because it's the Sylvers' first LP on the Capitol record label, and their first with 9 members of the family performing together instead of the original

TANYA

6! On our favorite side are Foster Sylvers' "Storybook Girl," and "Boogie Fever," which is also the Sylvers' single! (Capitol)

Carly Simon: "THE BEST OF CARLY SIMON" is just that—her best. If you loved her hits like "That's the Way I Thought It Should Be," "Anticipation," and "You're So Vain," well, now you can get them all together! 10 of her super hits to keep you music bound for a long while! (Electra)

Barry Manilow: "TRYIN' TO GET THE FEELING" is Barry's latest and if you love Barry and songs like "I Write the Songs" and "New York City Rhythm," then you'll want this LP! Also included are the title song and "A Nice Boy Like Me!" Barry is definitely a nice boy and he's got a nice album for you with this one! (Arista) ●
