Donny & Marie Osmond: "SONGS FROM THEIR TELEVISION SHOW." Wow! That's just about all we can say to Donny and Marie's latest LP release! If you love their show, then you know what we mean! Donny and Marie sing the most popular of the songs you've heard them doing in the country/rock 'n' roll spot, and also their opening numbers! A great LP to add to your Osmond collection. (MGM/Kolob)

Joe Cocker: "STINGRAY" is Joe's new LP and it includes lots of slow ballads like his hit "You are So Beautiful." Other good arrangements are "She is My Lady" and "A Song For You." This is a perfect LP for curling up and listening to from one side right through the next. Very romantic! (A & M)

Alan Rich: "GLASS HEART." Alan's been around in the music biz a long time and he has his own LP out and his first single, from it, "Fever for the Girl," was written by Bruce Springstein. Our favorite cuts are "Struggle in Darkness," and "Glass Heart," which is a very up-tempo love song! Alan's not only talented but handsome and on the road to a bright future! (Columbia)

Dr. Hook: "THE BEST OF DR. HOOK AND THE MEDICINE SHOW." This LP is simply the best from the group—including their latest hit "Only Sixteen" and other favorites like "Cover of the Rolling Stone" and "Sylvia's Mother." It's a very fun, fast paced LP to put everybody in a zany mood! (Columbia)

John Travolta: "LET HER IN." You know and love adorable John from his role as Vinnie Barbarino on "Welcome Back, Kotter," and did you know that he's got a terrific voice? His first LP should be out any day now, but until then, here's his first single to keep you happy. It's a beautiful ballad of love and we think you're going to love it! (Midland) •
