John Travolta: "JOHN TRAVOLTA." This is John's first album and it includes his hit single, "Let Her In." Besides a gorgeous picture on the front jacket, the album has some great cuts! John's soft and sexy voice is terrific on songs like "Never Gonna Fall in Love Again," "It Had to Be You," and "Goodnight Mr. Moon." John's recording career is really off with a big blast! (Midland RCA)

Elton John: "HERE AND THERE." Here's more Elton John magic for you! Elton croons out most of his hits like "Honky Cat," "Crocodile Rock," and "Bennie and the Jets" as well as 7 other tunes—all done live at concerts in London and New York so you feel like you were really there! (MCA)

Wings: "WINGS AT THE SPEED OF SOUND." All Paul McCartney and Wings fans get ready. This is the greatest album ever. It includes the hit "Silly Love Songs" and wonderful tracks like "Cook of the House" and "Beware my Love." Wings are selling out their concerts everywhere, so get in on the action by getting a copy of this LP! (Capitol)

David Cassidy: "HOME IS WHERE THE HEART IS." Cassidy is back with another album which is his best yet. Especially the cuts "On Fire" and "Take This Heart." David's albums get better as he goes along, so add this one to your collection. (RCA)

Bo Donaldson and the Heywoods: "TEENAGE RAMPAGE." This is a cut from the Heywoods' new Capitol album and originally was scheduled for release before "Oh Boy." It's fast paced with catchy lyrics and was a hit for the group "Sweet" in England a while back! Could be a hit for the Heywoods here! Listen for it. ●
