SWINGING SOUNDS

• BEST SINGLES

DAVID SOUL: "Don't Give Up On Us." After only a few weeks' release, our very own favorite 'Hutch' has a record really climbing the charts! David is the first actor in a dramatic series to make it to the charts this television season! And isn't it a pretty song? Makes you feel like he's singing to you alone! (Private Stock)

Susan Cowsill: "THE NEXT TIME I SEE YOU." Talented Susan has another single record out on the Warner Brothers' label. She used to be part of the singing Cowsill family, but she's been recording on her own for the past year! This record could be the big hit she's been working for! Her voice sounds wonderful and the production on the love song is very good. The lyrics are meant to be listened to and the music is soft and sweet!

• BEST ALBUMS

STREISAND/KRISTOFFERSON: "Star Is Born/Original Soundtrack Recording." An incredibly beautiful album! Sung by two of today's biggest stars. All of the songs on the album are lovely, including the released single, "Evergreen" which was written by Barbra and Paul Williams! Other pretty ones are "Lost Inside Of You" and "Woman In The Moon!" No Streisand fan should be without it! (Columbia)

LINDA RONSTADT: "Greatest Hits." There have been many "Greatest Hits" albums out by many different artists, but if they're Linda Ronstadt's greatest—you know they're great! What else can we say, they're all here, "Heatwave," "That'll Be The Day" and a slew of terrific others! Turn it up loud and LISTEN. (Asylum)

QUEEN: "Day At The Races." How many groups around today can put a number six album up on the charts after only being released for four weeks? One, that's who! And their name is Queen! This fantastic group has been around for quite some time, and they keep getting more dynamite every time they release a new one! A definite must for your record collection! (Elektra) ●
