The Beatles

## • BEST ALBUMS

**The Faragher Brothers: "THE FARAGHER BROS."** These four brothers, Danny, Jimmy, Tommy, and Davy Faragher, have put together ten songs into an album that's bound to be a winner! All the selections were written by the Faraghers, with the exception of a Curtis Mayfield tune. Some of the better cuts are "In Your Time of Need," "You Touched Me," "Losing Cause," and "Give It Up." Great music! (ABC)

**Gordon Lightfoot: "SUMMERTIME DREAM."** Gordon's latest album is one of, if not the best, he's ever done. It is a combination of love ballads, folk music, and light melodies. "The Wreck of the Edmund Fitzgerald," "Race Among the Ruins," and the title cut "Summertime Dream" are our favorites. (Warner Bros.)

**The Beckies: "THE BECKIES."** A brand new album from a brand new group that is really worth lending an ear. Their debut LP is a balance of natural rock and graceful melodies that should be pleasing to all. We especially enjoyed "Right By My Side," "On The Morning That She Came," and "Midnight and You." Nice listening! (Sire)

**The Beatles: "ROCK 'N' ROLL MUSIC."** If you like the Beatles (and who doesn't), you'll have to hear this LP filled with some of the greatest Beatle's hits from their early years to some of their more recent arrangements. "Got To Get You Into My Life" is the current single from the album. It accompanies other greats like "Twist and Shout," "Revolution," "Helter Skelter," and "Get Back." (Capitol)

**The Sylvers: "COTTON CANDY."** "Cotton Candy" is a great follow-up to their big hit "Boogie Fever." It's a disco song, so if you like to dance while you listen to good music, this is something you shouldn't miss. Cute melody too! (Capitol)
